

SPARTAN

SINCE 1943

WARRIOR

Built to protect and serve.

With fiberglass casing to protect and silence the entire machine, Spartan's premier trailer jet gives you 4,000 PSI at 18 GPM for the strength to clear almost any line. The patented 180° pivoting hose reel and optional four-function remote control let you handle the tightest spots. With pulsation and a full antifreeze system, the Warrior conquers tough clogs in any weather. Its clean finish gives you room to customize it with your company logo and colors, allowing you to easily transform the unit into your company's mobile billboard, and its 300-gallon towing capacity takes you above and beyond.

SPECS

- Pipe sizes: up to 24" diameter
- Pressure: 4,000 PSI
- Flow: 18 GPM
- Standard hoses: 500' of ½" high-pressure cleaning hose; 100' of ⅝" rubber supply hose; 75' of ¼" trap-cleaning hose
- Weight: 4,200 lbs. empty; 7,060 lbs. full
- Size: 160"L x 73"W x 74"H
- Engine: 74-HP, electronically-controlled turbo diesel or 87 HP gas
- Nozzles included: one penetrator and one closed stainless steel nozzle
- Warranty: (1) year limited warranty

FEATURES

- Triplex ceramic plunger pump delivers 4,000 PSI at 18 GPM
- Electronic controlled pump pulsation for maximum cleaning distance
- Patented 180° pivoting hose reel and controls, with variable speed hydraulic rewind
- Tier IV diesel engine meets all US emission standards
- 300-gallon water tank with integrated baffles allows unit to be towed while full of water
- Full-system winterization and antifreeze recirculation
- Lockable noise-reducing engine shroud protects unit while in tow
- Lift-up rear door provides sun and weather protection for operator
- Torsion single-axle suspension with electric brakes
- Smart pressure engine setting
- Top-mounted amber strobe light
- Manhole hose protection
- 75' of ¼" trap-cleaning hose
- Shut-down protection for low water, low engine oil pressure and high engine temperature
- Wash-down gun and lance
- Marine-grade gauges and battery enclosure
- Can be filled from hydrants or hose bibs
- Hose rewind guide pivots with reel

SAFETY

- Emergency stop button to manually shut down machine
- 12" nozzle anti-turn device
- Amber strobe safety beacons
- Bright colored 15 ft. leader hose
- Center, raised stop light

OPTIONAL ITEMS

- 4,000 PSI performance nozzle kit features 5 nozzles, including a genuine Warthog® nozzle for cutting roots
- Mobile hose reel for remote operation
- Stainless steel trap hoses in various lengths for ultra-flexible cleaning needs
- Foot pedal kit
- Jetter hose footage counter
- Venturi pump
- Remote control

All Spartan trailers are certified fully compliant by the National Association of Trailer Manufacturers.

Warrior Series **NEW FEATURES**

Built to protect and serve.

You already know how great Spartan's Warrior jettiers are. With fiberglass casing to protect and silence the entire machine, Spartan's premier trailer jet gives you 4,000 PSI at 18 GPM for the strength to clear almost any line.

EXCITING NEW FEATURES

- Gasoline engine option saves money without sacrificing power or reliability.
- Clutchless engine and pump configuration offers easier operation and less maintenance.
- Adjustable pressure unloader allows easy adjustment of pressure while maximizing flow when all you need is additional flow in the pipe.
- Redesigned work area with work lights for safer operation in low light conditions and additional room in the rear of jetter for storage and accessories.
- The push-button antifreeze system provides quick and efficient winterization and recapturing of antifreeze to save time and money, giving you peace of mind by easily protecting your investment.
- New safety beacons on the rear of the jetter for safer operation.
